- ✓ **Registration Fee includes** Friday reception with Journeys Aviation at Boulder airport, hospitality suite, Fly Market, Saturday seminars with topics ranging from the search for Amelia Earhart to an inside look with a US forest service smoke jumper, with a banquet to end the weekend with guest speaker George Bye of Bye Aerospace.

Bye Aerospace is applying innovative zero CO2 electric propulsion systems to its airplanes. The flyer family of all electric aircraft is set to replace the aged legacy fleet of fixed wing generation aviation aircraft. Please join us for a up close and personal visit with "The Father of Today's Electric Aviation Industry." Curious for more information, visit <https://byeaerospace.com/about> for more info.
